

District Long-Term Goals

Tri-Center Board Work Session
Wednesday, December 6, 2017

Students and staff engaged in meaningful instruction so students are well-prepared for life.

Samples of what success looks like

- Continue to enrich STEM opportunities and career/technical (vocational) offerings
- Maximize implementation and impact of technology and the one-to-one initiative
- Continue to grow staff collaboration focused on implementing innovative programs and “cutting edge” learning opportunities for students
- Enhance staff collaboration to ensure alignment of ongoing student learning across grade levels (student learning continues to build each year upon prior learning)
- Increase student exposure to career pathways/options and enhance staff/parent team work to help students plan for career options
- Incentives for student and staff students in pursuing and reaching learning goals

Thriving two-way partnership between the community and school district

Samples of what success looks like

- Partnering to increase student exposure to real-world learning and career opportunities
- Exploring internship and mentoring options
- Enhancing steps to build mutual support for success

Well-maintained, quality facilities together with a strong financial base so the district is positioned for continued success.

Samples of what success looks like

- Provide the best facilities possible while living within our budget and maintaining balanced taxes.
- Proactively maintain the infrastructure of our facilities.
- Remain a fiscally strong, viable school district
